Gimnasia Para Todos En Ceará: Historia De La Modalidad En El Estado.  
Gymnastics For All In Ceará: History Of The Modality In The State.**

Mestranda, Kássia Mitally da C. Carvalho.  
Universidade Estadual de Campinas

This work systematized the history of Gymnastics For All (GPT) in Ceará. For this research, descriptive, was initially conducted a documentary research (GIL, 2002), and later, the Oral History method (MEIHY AND HOLANDA, 2007). The only systematic and public initiative found about GPT in the state is the extension project of the Institute of Physical Education and Sports (IEFES) from the Federal University of Ceará (UFC), Gymnarteiros, started in 2011. Even this group had no detailed historical systematization of their formation and intervention, in this way, at the end of this research we create a database that will serve as a starting point for future studies about Gymnastics For All in Ceará and also, about the group (Gymnarteiros). We concluded that, the enlargement and questioning the history of GPT at Ceará, occurred in 2011 with the project of extension of the Federal University of Ceará- GYMNARTEIROS creation's. This major initiative is responsible for the dissemination and practical promotion of the sport in this state, also contributing to participations of the Ceará state in national and international sporting scene in the context of research related to the theme.

**Key-words:** Gymnastics, History, Gymnastics For All
